The Journey: How It Fits Your Process

You lead the planning. The app helps your clients on the day.

1 The Booking & Planning

ADVISOR LEADS

- Understand the family's needs, preferences and budget.
- Recommend the best travel dates and package options.
- Set expectations for what's possible and how to get the most from their trip.

Your expertise builds the foundation for a great trip.

2 The Pre-Trip Preparation

ADVISOR + CLIENT

- Introduce MagiPulse as the park companion app.
- Send the client card and our ready-made email.
- Share their must-dos, so they can build a day plan in the app (Pro).

You recommend it. Your client sets it up in a few minutes.

3 The In-Park Experience

CLIENT + MAGIPULSE

- Shows live waits and ride status, updated every 2 minutes, plus official weather warnings.
- Alerts them when a ride reopens or a wait drops to their limit.
- About 22 rides go down on a typical day. The plan adjusts around them.

Less refreshing apps, more enjoying the day.

4 The Wrap-Up

ADVISOR + CLIENT

- Ask how the park days went.
- A natural reason to follow up after the trip.
- Their feedback tells you what to recommend next time.

A good park day is part of the trip they remember.

5 The Long-Term Advantage

ADVISOR

- Help that reaches past the booking, into the park.
- Free client cards, emails and videos, ready to send.
- An optional referral fee when a client's first Pro purchase uses your code.

One more way your planning shows up on the day.
